

## HOW TO CREATE A FAVORITES LIST

If you are like most people, you watch the same five to ten stations regularly. You can create a FAVORITES list very easily.

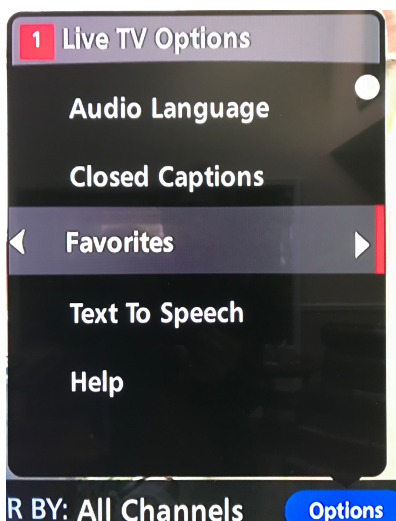

- 1) **Tune to the Station you like** - let's say it is Channel 6 ABC in High Definition - that's channel 506.

- 2) Looking at your Remote Control, you want to **click on the OPTIONS button**

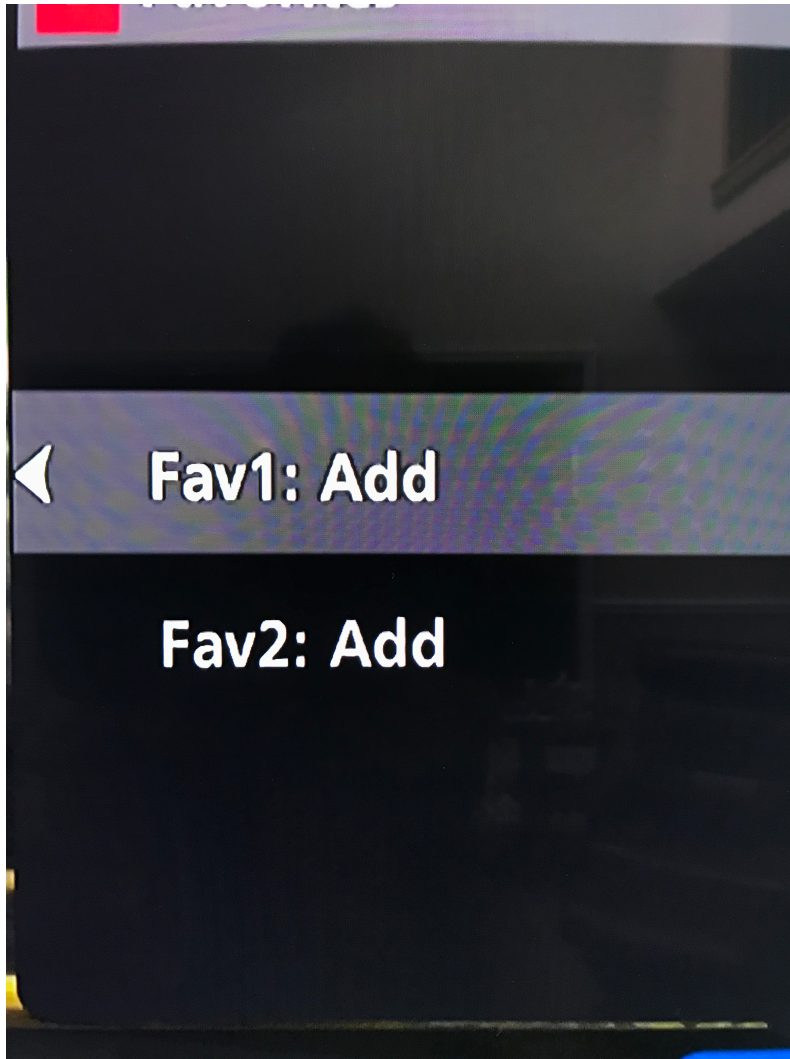

- 3) You will see this view come up on your TV. Using the BLUE DOWN ARROW near that Options Button, scroll down to the word FAVORITES.

- continued

4) Use the BLUE RIGHT ARROW Button to click into Favorites

5) Repeat the process to ADD channels to your Favorites List.  
and use the same process to REMOVE Channels from your Favorite List
