Television and Music Channels Operating Instructions

updated May 24, 2018

Using the Remote – (there is a compete guide to using the remote – see postings)
● **Press the _Power On_ button; both TV and HD box are turned on. One of two MODEs is possible: television viewing mode OR music playing mode. If both MODE and channel number are what you want, OK.**

● **If one wishes to change the MODE or TV channel, see below:**

A. If **television viewing mode** is on, press _keypad_ numbers to get the desired TV viewing channel. The desired **television viewing** channel is activated.

B. To change from Television viewing to the **Music playing mode**:
1. Press _keypad numbers_ to get the desired **Music channel**. (For example, Easy Listening 1847) The music playing option is activated.
2. Screen shows message, "Loading." Wait awhile. Music stops and screen shows "Music Choice" Wait. Music starts again with desired music with a small square in the lower right and menu strip on the top of the screen.
 3. To get music information on a **full** screen, press the _down_ button; _two lines_ are added to the _small square_ on the screen. Press the _OK button_; a full-screen appears.

C. If **music playing mode** is on, and _one desires to change to_ **ANOTHER music channel:** _Works if music is on full screen. See note below._
1. Press _exit button_ **twice***, screen keeps playing the first music and gives a screen message of _loading_ on the screen.
2. When loading stops, the screen shows _MUSIC Choice advertisement,_ music stops and is followed by a picture with a _small square symbol_ in the lower right and a menu strip on the top of the screen.
3. Go to Step B1. above.
Note: If screen is not on "full screen", the outcome seems erratic. Screen message, "More FIOS Channels" appears. Press FIOS TV button to continue.

D. If **music playing mode** is on, and one desires to change to a **television viewing channel:**
1. Press _exit button_ **twice***, screen keeps playing the first music and gives a screen message of _loading_ on the screen.
2. When loading completed, press _keyboard_ number to get the desired TV viewing channel. The desired **television viewing** channel is activate
* Press once; screen message appears with option, "Press again to leave"; press again.
